

LOCAL & COMMUNITY-BASED ECONOMIES • VALUED WORKFORCE • ENVIRONMENTAL SUSTAINABILITY COMMUNITY HEALTH & NUTRITION • ANIMAL WELFARE • EQUITY, ACCOUNTABILITY, & TRANSPARENCY

School food purchasing bolstered by a values-based incentive fund has the power to spur progress across USDA-aligned goals including environmental sustainability, rural development, supporting socially disadvantaged farmers and producers, and strengthening local supply chains. **Cost is a primary barrier to achieving these goals.**

FUNDING SUMMARY

\$0.15	Incentive per \$1.38 meal
\$215M	Incentive cost (3 years)
13%	Increase in values-based purchases
120%	Estimated return on investment

PROPOSAL

A competitive pilot to serve as a proof point in the field and support USDAaligned goals related to five core Good Food values through strategic purchasing DETAILS

Three-year grant opportunity for 25 school districts, providing incentive funding, technical assistance to support supply chain coordination, and evaluation

OUTCOMES

- Increased equitable food sourcing
- Accelerated market viability for regenerative agriculture
- Strengthened local purchasing network to support socially disadvantaged farmers
- Evaluation of broadbased health outcomes and project changes in long-term health costs

IMPACT

- Estimated \$15.5 million from reduced CO2 emissions,
- \$5 million from reduced water usage,
- Nearly \$65 million from increased wages due to **local jobs**.

The Incentive Fund can increase values-based food purchasing by nearly 13% at 25 districts currently spending \$555M a year on food, impacting more than 2.86 million students through 478 million meals served annually.
